Our members are eager to partner with Congress and federal government agencies such as CMS and ONC and regularly do so in order to move positive policy forward,” commented ADVION President Mike Capstick, who runs the largest rehab therapy company in the country. “I’ve witnessed the incredible strides that ADVION has made in ensuring that our members are literally “at the table” and truly able to impact the policies that are shaping this sector. I’m honored to work with this outstanding Board and the entire ADVION membership, which is making such a difference in the health policy that affects our sector” concluded Capstick.
